PROFESSIONAL SUMMARY

Skilled **Software Engineer Project Lead** bringing more than **14+ years** in software design, development, technical expertise, and good supervisory skills with team software engineers and advanced knowledge of **PHP(Laravel/Lumen), ROR, Node, MongoDB, and JAVA**.

Successfully lead project management teams to build technological products, including web, mobile applications, and hybrid applications. Understands the demands of the constantly evolving marketplace.

SKILLS

- PHP (Laravel – 8+ years, Symfony – 4 years) – **14+ years**.
- Restful API – **12+ years**.
- MySQL, PostgreSQL, and Active Record – **8+ years**.
- E-commerce background – **7+ years**.
- Ruby-on-Rails – **6 years**.
- Node – **4 years**.
- MongoDB – **4 years**.
- GIT, Subversion and FTP – **14 years**.
- Facebook API, AWS, Firebase – **8 years**.
- Java/Python – **3+ years**
- Agile Project management – **6 years**
- Plan software development lifecycle phases
- Software proficiency
- Risk and Cost Management
- Coding and modularization
- Refined system debugging skills.
- SEO coding and strategy
- Windows and Linux
- Excellent communication skills
- Excellent problem-solving abilities

EXPERIENCE

Software Engineer Project Lead – Full-time – MAURITZ JARL SOFTWARE HOUSE LLC

Dubai, UAE - August 2018 – present

- Lead an on-shore and off-shore team of web and mobile software developers programming applications for **health, e-commerce, and social media industry clients**.

- Managing and improving systems consistently using **Agile** practices.
- Implemented a set of comprehensive tracking processes by using **JIRA** and **GitHub** for version control.
- Implement, integrate, and document a variety of software platforms through the **REST API framework**.
- Plan software development lifecycle phases, defining project scope, goals, and deliverables.
- Write and modify programming code for web-based applications.
- Participate in architectural sessions and provide solutions to complex problems.
- Solving problems using logic and methodical testing processes.
- Implementing workflow processes by assessing operational capability, troubleshooting, diagnostics, and designing.
- Work closely with other groups like product, business analyst, quality assurance, and project management resources throughout the delivery of solutions.
- Directed team meetings to check on progress and plan code direction and provide project progress reports to the project team, stakeholders, management, and executives.
- Consistently delivers working software that meets standards.
- Traveled to conferences across the country and abroad (Sweden & Pakistan) for this purpose.

Skills: REST APIs · Laravel Lumen · Agile Project Management · Ruby on Rails · Software Development - Object-Oriented Programming (OOP) · Data Structures · Web Applications · PHP · Laravel · MySQL · jQuery · Linux · Facebook API · Google API

Software Developer – Freelance Full-time – NUM8ERS INSTITUTES AND EDUCATION LLC

Dubai, UAE - June 2017 – June 2018

- Created code for computer software, analyzed and created applications using various technologies, and implemented software solutions to our **Learning Management System (LMS)** named num8ers (<https://num8ers.com>).
- Responsible for testing and debugging software, as well as documenting software specifications and requirements.
- Worked with our Laravel based **CRM** to operate our end user site.
- Deploy software applications to production environments.
- Monitor and maintain software applications.
- Collaborate with other software developers and technical staff.

Skills: REST APIs · PHP · Laravel · MySQL · Android · Facebook API

Software Engineering Team Lead – Full-time – MMA GROUP

Dubai, UAE - August 2017 – June 2018

- Led a group of 8 engineers in the design, and development of **NodeJS, PHP, Ruby-on-rails**, and **Android**-based software solutions on a **Video Calling Application** like WhatsApp
- Delegate tasks to programmers and software developers
- Providing estimates and refining it as part of an **agile** project
- Create and develop system applications utilizing standard concepts, practices, and procedures.
- Providing technical leadership to project team members and responding to inquiries.
- Designed and developed transactional and analytical data structures.
- Engineered configuration server in **CentOS** to reconfigure **RTMP, Openfire & Firebase**.
- Implemented **GitHub** for version control.

Coordinate code inspection protocols to test the performance quality of products.

Skills: Laravel · lead developer · Ruby on Rails · Web Services · Object-Oriented Programming (OOP) · Data Structures · Programming

Senior Software Engineer – Full-time – DLIST PORTAL LLC

Dubai, UAE - November 2016 – July 2017

- Developed object-orientated E-Commerce web-based application, including <https://abraa.com> & **CRM**.
- Wrote on Custom Framework in **PHP** using **Linux** Environment.
- Involved in designing view templates using responsive design with **Angular, bootstrap, CSS3, SASS**, and **HTML5**
- Performed data analysis and provided recommendations to achieve **E-Commerce's** platform.
- Analyzed and designed relational databases.
- Wrote and implemented scripts to enhance user experience and integrated scripts with the CMS.

Skills: Laravel · Web Services · Object-Oriented Programming (OOP) · Data Structures · Programming · Mobile Applications · PHP · Databases

Senior Software Developer – Full-time – TECHTRONIX CORPORATION

Islamabad, Pakistan - November 2012 – October 2016

- Developed object-orientated software, CRM, and Sales force in **PHP(Symfony)**, **Ruby-on-Rails** and **Android**.
- Analyzed and designed relational databases using **MySQL** and **Postgres**
- Collaborated with product management to design, build and test systems.
- Modified existing software to correct errors, adapt to new hardware and improve performance.

Web Developer – Full-time – ZAHURK TECHNOLOGIES, CORP

Islamabad, Pakistan - August 2008 – August 2012

- Developed object-orientated web-based application, including [www.netdigitalnews](http://www.netdigitalnews.com), www.digitalbook.us and www.thearena.com.pk.
- Wrote on **PHP, AJAX & JQUERY** using **PHPSTORM**.
- Designed intuitive graphical user interfaces using knowledge of serial communications and database design.
- Collaborated closely with clients to establish problem specifications and system designs.

CERTIFICATIONS AND LICENSES

- UAE Light Motor Vehicle driving license – Expiry 2027
